

## Dealing with logiciel Raid

# Deleting / destroying a Raid array

- Get infos about the raid:

```
sudo mdadm --detail /dev/md0  
(or md1 or ...)
```

- stop the raid array:

```
sudo mdadm --stop /dev/md0
```

- send a “zero-superblock” to each partition that has been member of the raid

```
sudo mdadm --zero-superblock /dev/sdXX  
sudo mdadm --zero-superblock /dev/sdYY  
etc...
```
